## SUMMARY

---

Motivated fourth-year Computer Science and Engineering student with a strong foundation in software development and problem-solving. Proficient in Java, Python, and C++, with hands-on experience in developing web applications and mobile apps through coursework and internships. Seeking a software engineering internship to apply my skills in a practical environment and contribute to impactful projects. Known for strong analytical abilities and effective teamwork.

## EDUCATION

---

### Chitkara University

B.E CSE-CGPA-7.8

### OPS Vidya Mandir

Class X - 93%(2020), Class XII - 85%  
(2022)

Rajpura, Punjab

Aug2022–Present

Karnal, Haryana

## TECHNICAL SKILLS

---

**Programming Languages:** Java , SQL

**Frameworks/Libraries:** ReactJS, Flask, NodeJS, Bootstrap, MaterialUI

**Tools/Platforms:** MongoDB, Git, Linux, Socket.IO

**Soft Skills:** Collaboration, Teamwork, Event Management, Public Speaking

## PROJECTS

---

### ChatGPT clone

- Built a ChatGPT-like conversational interface using OpenAI's GPT API, Flask (backend), and React (frontend).
- Integrated MongoDB to persist chat histories, enabling users to revisit prior conversations.
- Structured project for future fine-tuning integration, allowing model customization for specific use cases.

### ChatMate

- Developed a chat platform using MongoDB, Express.js, React.js, and Node.js.
- Implemented JWT and bcrypt for secure authentication and personalized user profiles.
- Integrated Socket.IO for real-time communication with a message response time of under 50ms in testing.
- Supported both individual and group chats, increasing interactivity and feature richness.

## ACHIEVEMENTS

---

- Solved 400+ Problems on **Leetcode/Gfg**
- 5\* in Python at **HackerRank**

## CODING PROFILES

---

- LeetCode: akshit1229
- GeeksforGeeks: akshit4572
- HackerRank: akshit1229
